More traffic ≠ more revenue

Organic traffic brings visitors. Not all of them are your ideal audience.

01 More traffic

Visitors who arrive, but are not ready to buy.

- ✕ Low intent
- ✕ Irrelevant audience
- ✕ High bounce rate

Example: a viral post that nobody buys from.

02 Qualified demand

Visitors who match your ideal client and need your help.

- ✓ Right audience
- ✓ Higher engagement
- ✓ More conversions

Example: a service page that answers one buyer's question.
